

## Helping Businesses Survive and Thrive

CyberCompass helps businesses fight asymmetrical cyber warfare that can attack from anywhere - external, internal, 3rd party, or duped employee.

It is a holistic solution that builds a culture of cyber resilience across your business's ecosystem – people, processes, technology and vendors at one third the cost of a full time employee.

Only CyberCompass offers a complete, affordable ongoing managed cyber resilience service with virtual leadership and cloud-based SaaS platform that:

- ✓ Creates a custom battle plan to build your cyber resilience
- ✓ Assesses your business ecosystem to identify cyber risks, pinpoint vulnerabilities including technical to 3rd parties, and against multiple privacy regulations
- ✓ Eliminates deficiencies and minimizes cyber risks
- ✓ Monitors, collaborates and course-corrects to maintain culture of resilience
- ✓ Gives you assurance with \$250,000 of cyber coverage from North American Data Security RPG

## Complete Cybersecurity and Compliance Program

### In-depth expertise and cloud-based SaaS Solution

CyberCompass adds bandwidth to your team with a 'fractional cyber department' to provide continuous targeted support. You get the expertise of a Chief Information Security Officer, Chief Compliance Officer and a Chief Privacy Officer with a best in class cyber risk management platform.

CyberCompass cloud-based platform gives you the transparency, project management and ability to capture all the documentation in one place. Our solutions includes dashboards, reporting and an encrypted to store your documents and access them easily.

## Solution Includes:

### Security Risk Assessment

Every business needs a risk assessment to understand their current state so they can move forward cost effectively. We cover your entire business ecosystem to pinpoint your vulnerabilities.

### Information Security Program

Quickly assess each risk in your Information Security Program (ISP) and make recommendations to strengthen policies and procedures. Includes customizable policy templates and a policy and procedure document repository.

### Vendor Compliance Management

Easily perform risk assessment, with the ability to instantly create documents for compliance
